Motion to Dismiss Guardian Ad Litem Appointment

COMES NOW Matthew Oliver Reardon, Pro Se, and hereby moves this honorable court to dismiss it's appointment of a Guardian Ad Litem. Without reattaching them, Movant reaffirms his same motions filed before this court which all along have stated that petitioner filed false, fraudulent, and perjurious petitions with this court to pad the outcome of another legal matter at the time as well as helping to justify the absolutely bizarre decision to keep the minor child from her father as well as her own siblings. Movant raised claims about the initial petition filed by Petitioner's attorney September 30, 2020 was fraudulent due to it having a duplicated notary stamp, and even if the petition did not require a signed affidavit to accompany it, a fraudulent act still occurred which in turn led to even more. Movant would allege before this court that there has been a clearly shown abuse of power demonstrated by the Petitioner and her attorney continuing to get away with the nonsense they have and further to expect for movant to cave on his own constitutionally afforded rights in what can only be described as a witch-hunt that continues coming back for more yet to no avail. Movant has continued to feel that this appointment is "tainted" with a Guardian Ad Litem whom has prior connections to the petitioner's attorney in an ongoing tumultuous legal saga involving multiple courts and a common tie back to certain individuals including most of all the petitioner and her counsel and involving multiple serious and well documented allegations of collusion and civil conspiracy to remove and keep removed the civil rights and liberties of the movant. The Guardian Ad Litem in this cause has showed more of an interest in taking a (false) allegation from over a year ago which was closed out unfounded by Department of Child Protective Services and trying to "investigate" it despite the claims of the petitioner being proven false by DCPS reports. The DCPS

SCANNED

reports being produced at trial should have closed this entire ordeal out with petitioner and her counsel receiving some just punishment/sanction by this court due to clearly being in violation of perjury as movant stated in many motions, and further allowing movant at the very least to make up all lost time with his minor child. Movant is outraged that this type of conduct is clearly condoned, as this leads way to precedence being set and furthermore dilutes the absolute importance of a sworn affidavit along with the weight that it holds. As of Friday, 2/5/2021, the GAL had still not seen the reports on file at this court, yet has insisted on trying to enter and invade the privacy of not only movant's home and civil liberties, but his wife's family's home and consequently the privacy of movant's spouse's elderly grandmother. When this entire petition stemmed from an allegation wrapped back to reports which show exactly what movant has stated since the beginning, how is it acceptable for the petitioner to still be allowed to poke and prod away at Movant in an attempt to fish for something to hang over his head? Movant is in disbelief that he has continued to sustain injuries at the hands of petitioner and all impressions appear that she is aided and enabled instead of curbing the continued destructive and dangerous behavior that has been done with illest of intent to remove undeservingly rob a father of his parental bond with his child, and further attempting to rob movant of opportunities in life by way of criminal accusations and false instruments/petitions filed with the court which she has yet to be checked on. Movant requests a rushed hearing and further clarification by this court on this matter and will assert that he is open to a phone conference between the judge, opposing party, and current GAL if that pleases the court and other side. Exhibits attached which movant views as particularly inappropriate for a "neutral" Guardian Ad Litem and further coercion tactics deployed by GAL.

WHEREFORE ALL PREMISES CONSIDERED

Movant requests that GAL be removed from this cause and movant further requests further clarification about how DCPS reports show that Petitioner lied, same as Movant has stated all along and a further probe into the right areas would show everything Movant has claimed in response is correct. Movant

wishes to live his life free from harassment and undeserved invasions of privacy and in particular due to ongoing legal matters the petitioner has clearly shown an intent on interfering with. Most of all, Movant simply wants to see the laws applied evenly and equally in Lafayette County and the State of Mississippi, something that movant has not received any desire for compliance to do up until now. Movant also prays that this court uphold the integrity of both this court as well as all others in taking statements made under sworn affidavit seriously including holding those responsible for committing the crime of perjury in making knowingly false sworn statements.

Movant also prays for any other relief be it special or general, for which he may be entitled

RESPECTFULLY SUBMITTED THIS 9TH DAY OF FEBRUARY 2021,

Matthew Oliver Reardon
