To the Office of the Inspector General,

Please find attached my formal complaint regarding serious misconduct, civil rights violations, and potentially criminal acts involving federal and local officials acting under color of law. This complaint is submitted pursuant to the OIG's mandate to investigate abuse, retaliation, and corruption within or involving DOJ operations and personnel.

My name is Matthew Oliver Reardon, a journalist and constitutional rights advocate. I am submitting this complaint to document a pattern of retaliatory conduct, unlawful surveillance, and suppression of constitutionally protected activity that has taken place across multiple jurisdictions—including documented misconduct by officers believed to be acting with information shared or enabled by DOJ-affiliated entities, including the FBI.

The attached materials include:

- 2 sworn declarations and Additional Exhibits
- Supporting documentation
- Chronology of events implicating federal involvement and deprivation of rights

I am requesting a formal investigation by the OIG into this matter. I am also requesting that this complaint be formally acknowledged and assigned a case number for follow-up.

Due to the seriousness of the issues raised—including the chilling of First Amendment rights, improper data dissemination, and possible abuse of NCIC systems or federal intelligence—I respectfully request expedited consideration and whistleblower protection status if applicable.

I am prepared to provide additional documentation or testimony upon request.

Please confirm receipt of this complaint

Respectfully,
Matthew O. Reardon
